JUPITER C. SOMERA

Remote LTL Specialist · US Freight Operations Support

Manila, Philippines · Works US hours (Central) · jupitersomera4@gmail.com · Telegram @jupitersomera · linkedin.com/in/jupiter-somera-640b69444

SUMMARY

US truck dispatcher trained in freight brokerage, dispatch operations and freight virtual assistance, moving into LTL operations, with 12 years of technical support experience (2000 to 2012). I build my own freight tools, including an NMFC freight class and density calculator, and bring a troubleshooter's attention to detail to quoting, booking, tracking and BOL work. Fully remote and available full-time, 8 hours a day in US time zones.

SKILLS

LTL

- Freight class and NMFC, including the 2025 density scale
- Density, cube and linear-foot calculations
- Accessorials: liftgate, residential, limited access, inside delivery
- BOL prep, handling units and hazmat details
- Preventing reweigh and reclass charges

Freight operations

- Load sourcing and rate negotiation
- HOS and trip planning
- Rate confirmations, BOLs, PODs, detention and layover
- Load tracking, check calls and appointments across US time zones
- Broker and carrier communication by phone and email

Systems: Estes and ODFL carrier portals · DAT load board · Google Sheets and Excel
